

L'Œuvre au corps

Galerie La Forest Divonne, Paris PARIS | FRANCE

JAN 13, 2022 - FEB 19, 2022

The Galerie La Forest Divonne joins forces with Swenden Studio in Paris and Brussels to create a unique sensory experience, through the meeting of art and taste! For this collaboration the Galerie La Forest Divonne Gallery and Swenden Studios associate their respective fields of expertise, the visual arts for one and gastronomy for the other, around a new concept bringing together six international artists and six great star chefs. This project will be divided into two parts, in the two galleries and in these six exceptional restaurants. On the one hand, the chefs will work with the artists to create a work to be tasted by the public during a launch evening in the galleries, in the midst of the works on display. On the other hand, the chefs will invite the artists to set up a part of their restaurant, and will be inspired by the work of the artist associated with them to create a unique culinary experience which will be declined in meals in the restaurant. The public will be able to reserve seats to live this culinary and artistic experience at the artists' table. Throughout the project, the two galleries will each exhibit the three artists associated with the project in their city in a collective exhibition allowing the public to immerse themselves in the works that have so inspired the chefs. In addition, some of the chefs will offer the public a taste of the flagship flavors designed for their restaurants in the form of a spice, a tea or a bite to eat.

Artists on show

Guy de Malherbe Jean-Bernard Métais Valérie Novello
